May Fraud Prevention Tips

Here are some things you can do today to increase your security and help protect yourself against fraud and identity theft.

1. **Use a secondary Email Address.** Create a separate email for online shopping, newsletters, and sign-ups. This helps contain potential spam and phishing attempts and protects your primary email (often tied to banking or sensitive platforms) from being targeted in data breaches.
2. **Use Prepaid Cards for Unfamiliar Websites.** When shopping on new or unverified sites, use a prepaid gift card with limited funds. It minimizes risk if the site turns out to be fraudulent.
3. **Verify all financial communications.** NHCU will never text, email, or call asking for account or personal information. During business hours, call (251) 316-3240 to verify the communication.
4. **Secure Your Wi-Fi Router.** Change the default login credentials on your home router and disable remote access. This strengthens your home network against cyber intrusions.
5. **Search for Your Personal Information Online.** Regularly Google your name, email, and phone number. This can help you spot potential identity theft or unauthorized data exposure.

If you feel you have been a victim of fraud or identity theft, please contact NHCU at (251) 316-3240 or [identitytheft.gov](https://www.identitytheft.gov).
