

NEW HORIZONS CREDIT UNION

Solutions for the Real World[®]

The Credit Union Difference

You work hard for your money, and you want to protect it. But with so many options out there, how do you choose where to put it? Here's why more people are choosing a credit union over a traditional bank.

NEW HORIZONS CREDIT UNION

Solutions for the Real World[®]

Better Rates, Lower Fees

Because credit unions are member-owned, the profits don't go to outside shareholders—they come back to you in the form of lower rates and fewer fees. When you open your first account with us, it starts with a simple savings account. A minimum deposit of just \$5 is all it takes to become a member-owner of the credit union.

Member-Focused

Your wellbeing is at the heart of everything we do. Whether it's a teller transaction, a loan application, or a conversation about financial literacy, we're here to provide real-world solutions for real people. We know every financial situation is different, and we're committed to delivering the personalized service that sets our members up for success.

NEW HORIZONS CREDIT UNION

Solutions for the Real World®

Rooted in the Community

Through our Horizons Helping Hands program, we support local nonprofits that make a difference right where we live. We collect tab tops for the Ronald McDonald House each year, host donation drives for local shelters and food pantries, and look for every opportunity to give back. Serving our community isn't just something we do—it's who we are.

Building Financial Literacy for Life

New Horizons Credit Union partners with GreenPath Financial Wellness to offer members free financial literacy webinars and one-on-one counseling. And because healthy financial habits start early, we support young savers through our New Wave Savers program with quarterly newsletters and engaging events.

Ready to make the switch? Stop by a branch or visit us online to learn how you can become a member today.
